

3/26/26

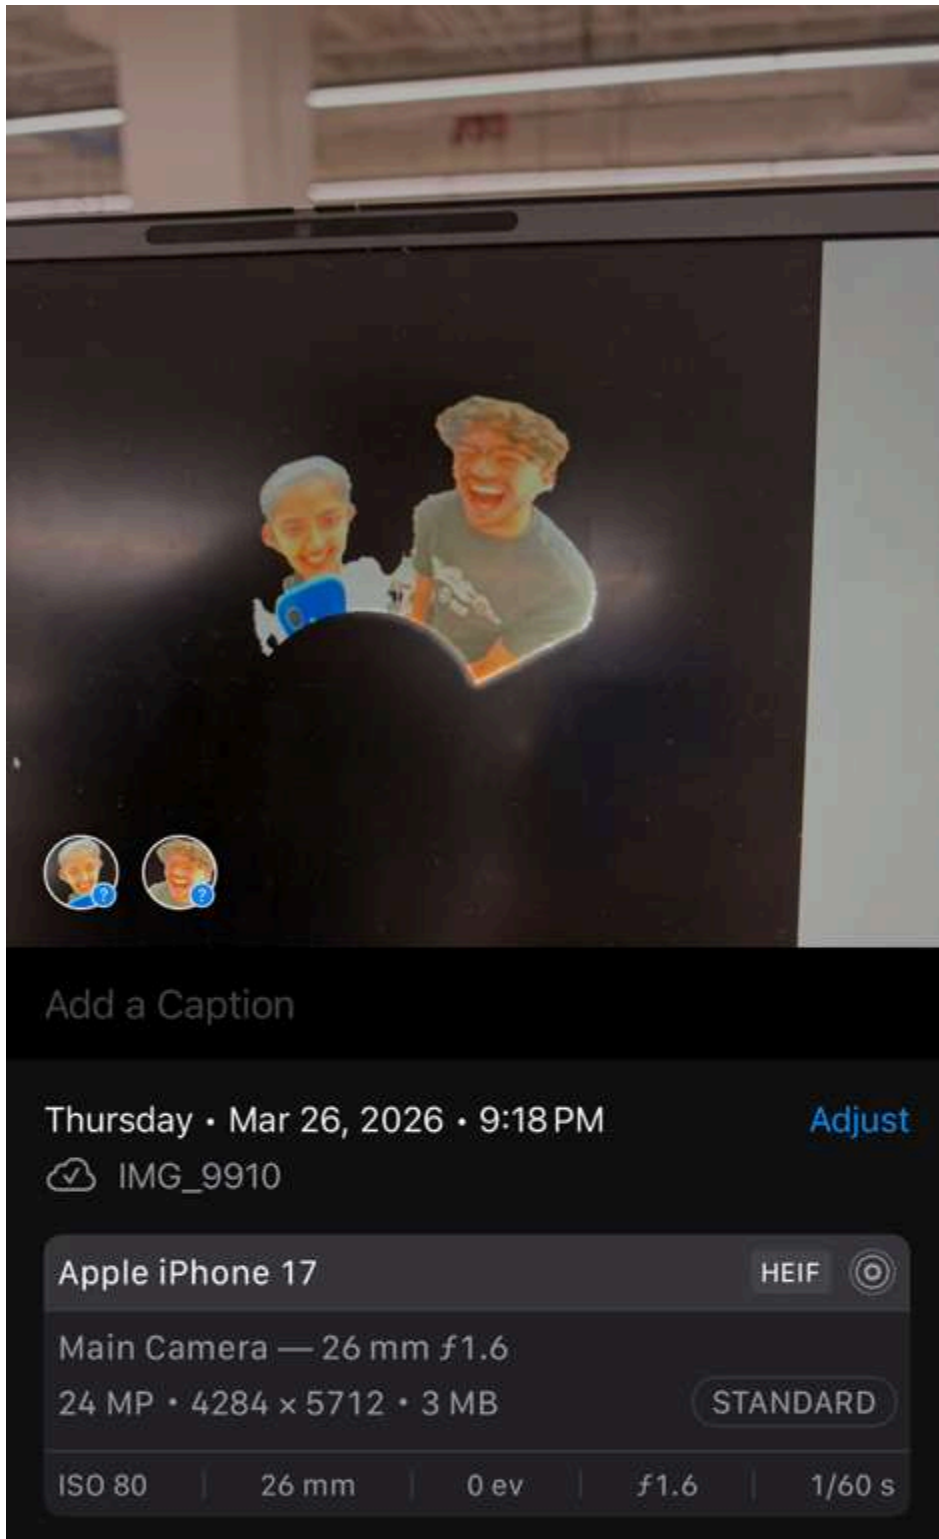

Instructions to run LIVE application

1. Install VS Code and Python (version 3.10)
2. Clone the repository:
git clone https://github.com/wshaoul/CpESeniorDesign-Peppers-Cone
3. Run this command in Terminal:
cd CpESeniorDesign-Peppers-Cone/Interface
4. Create Python environment:
py -3.10 -m venv winenv310
5. Run this command:
.\winenv310\Scripts\Activate.ps1
6. Install dependencies:
pip install opencv-python mediapipe==0.10.21 numpy
7. Run the LIVE application
py studio_main.py

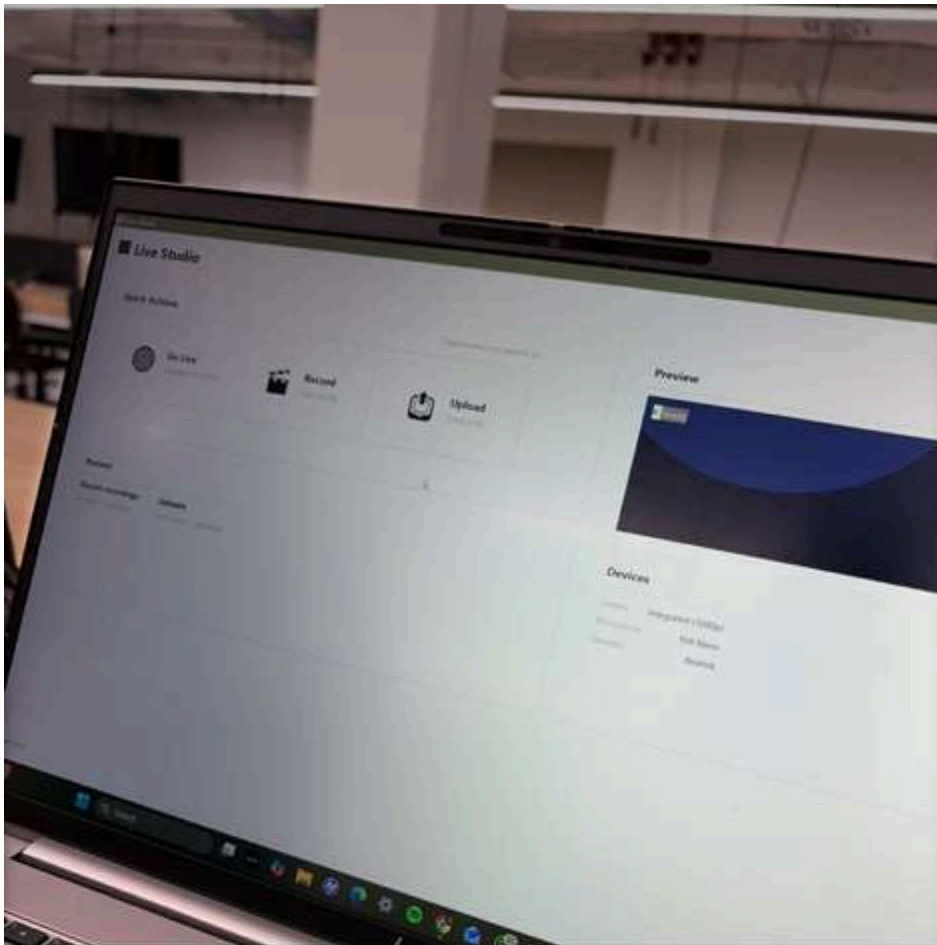

Successfully ran square cone based on outdated instructions

Ran prior teams' incomplete circle cone radial layout

Figured out how to run the Live application after analyzing codebase & trial and error (no instructions given from prior group)
